Product: Wayona Nylon Braided USB to Lightning Fast Charging and Data Sync Cable Compatible for iPhone 13, 12

Review Title: Satisfied,Charging is really fast,Value for money,Product review,Good quality,Good product,Good Pro

Review: Looks durable Charging is fine tooNo complains,Charging is really fast, good product.,Till now satisfied with the quality.,This is a good product . The charging speed is slower than the original iPhone cable,Good quality, would recommend,https://m.media-amazon.com/images/W/WEBP_402378-T1/images/I/81---F1ZgHL._SY88.jpg,Pr oduct had worked well till date and was having no issue.Cable is also sturdy enough...Have asked for replacement and company is doing the same...,Value for money

Review Title: A Good Braided Cable for Your Type C Device,Good quality product from ambrane,Super cable,As,Go

Review: I ordered this cable to connect my phone to Android Auto of car. The cable is really strong and the connection ports are really well made. I already has a Micro USB cable from Ambrane and it's still in good shape. I connected my phone to the car using the cable and it got connected well and no issues. I also connected it to the charging port and yes it has Fast Charging support.,It quality is good at this price and the main thing is that i didn't ever thought that this cable will be so long it's good one and charging power is too good and also supports fast charging,Value for money, with extra length,Good, working fine,Product quality is good,Good,very good,Bought for my daughter's old phone.Brand new cable it was not charging, I already repacked and requested for replacement.I checked again, and there was some green colour paste/fungus inside the micro USB connector. I cleaned with an alcoholic and starts working again.Checked the ampere of charging speed got around 1400ma-1500ma - not bad, came with braided 1.5m long cable, pretty impressive for the price.Can't blame the manufacturer.But quality issues by the distributor, they might have stored in very humid place.

Product: Portronics Konnect L 1.2M Fast Charging 3A 8 Pin USB Cable with Charge & Sync Function for iPhone, iP

Review Title: As good as original,Decent,Good one for secondary use,Best quality,GOOD,Amazing product at a min

Review: Bought this instead of original apple, does the work for 150rs, not as fast as apple charger but its a good option if you want cheap and good product, bought it for iPad pro 10.5 and it's working flawlessly, build quality is ok, its not like i am gonna hang my clothes on it and i want a very strong cable, even a braided cable stop working after a year, i have used both Anker and Apple store strong braided cable they all stop working after a year so please don't buy high end cables just for that instead choose a this one and even if it's stops working withing a year you only loose 150rs compares to 2000rs.UPDATE-----pin has stopped charging from one side, now i have to slip the pin to charge from other side, but i will update and let know for how long does it work,,Its good. Not sure about

durability as the pin area feels a bit fragile,Does not support apple carplaySo was little disappointed about thatOther than that cable is made up of very good quality,Best to buy,100% NOT FATHFUL,Writing this review post 10 months and 3 orders of the same product.Honestly Portronics Konnect L lightning cable works like magic with the original Apple charging brick.Seeing the price of the cable I initially hesitated buying as it was as low as 99/- with the offers and so I wasnt sure if it would work well with my iPhone 12 or whether it would impact my iPhones battery health because all the other lightning cable brands were costing over 350/- like Wayona, Amazon Basics, etc.Earlier I was using Wayona Brand lightning cable with eventually frayed and stopped working.Charging Speed:Charges my iPhone fast enough almost similar compared to the original cable level when used with 12W Original Apple power adapter.Quality and Durability:Great quality braided cable and doesnt tangle easily and can withstand day-to-day usage.L-Shaped pin:This is very innovative by Portronics and it makes sure the cable doesnt get damaged even if used while charging.CarPlay and Data Sync:Works smoothly with CarPlay and syncs data effortlessly.PS: I have used this cable only with the Original Apple Charging Brick and extremely satisfied with its performance.,Better than I expect the product I like that Quality and I plan to buy same type cable come with usb C to Lighting cable for emergency purpose that much I love this cable. Buy for this cable only emergency uses only since Good one,Good product and value for money

Review Title: Worth for money - suitable for Android auto,Good Product,Length,Nice,Original,Very good quay Cable

Review: Worth for money - suitable for Android auto... my purpose served in car....got it for Rs.150,Everything is Okay. But packaging is not good feeling like seller gave is used cable.,Good product,Good product but cost is more.,Original cable,I bought this cable at 129. Using this cable for Android auto in my car. Perfectly works without any glitch.,Original MI cable. Will charge upto 33 watts. Got it for Rs 150. I have 67 watt charger and I want a cable for my car so I went for it. I checked the performance with battery charging app. The charging speed is exactly half of my 67 watt original cable. Go for it.,It provided me turbo charging. I recommend for all Redmi note 10s mobile phones. As it provide turbo charging. I am veri happy with this product.

Product: TP-Link USB WiFi Adapter for PC(TL-WN725N), N150 Wireless Network Adapter for Desktop - Nano Size

Review Title: Works on linux for me. Get the model with antenna.,Does what it say but other brands available at less

Review: I use this to connect an old PC to internet. I tried lubuntu 20 and ubuntu 22, it worked out of the box in both, didn't have to do any setup. There's an extender cable so you can place this in a comfortable place. Get the model with antenna because otherwise you'll have range problems if you're not directly in line of sight from your wifi router.,The wifi dongle is a simple plug & play device, will start catching available networks right after you plug it into your USB port, no additional installations/ softwares requires. Signal strength is good.... just wonder what would be different in other adapters of lesser known brands which are available at a much more competitive pricing, hence a star less.,Pros:*Easy to use & Portable*Can be connected to Mobile Hotspot and used in PC(Budget Friendly)*Less installation process*No heating issues & Good Coverage*Best alternative for USB Tethering (phone's battery may get damaged for long term run with

Tethering)Cons:*Internet connection speed varies at times, also depends on your modem or cellular connection*Issues occur while installing via CD, which is available along with the product(Installation driver can be downloaded from TP-Link site)*Needed to reconnect the adapter every time system is turned ON*Will not work if your software has some issues, so encountered any just update your system(worked for me)*Support Center is worse, calls are unattended most of the times or just visit nearby storeConclusion:Brought this @499/-Ideal for users who don't need very high speed internet usage,a good alternative for USB Tethering and are on Budge(1080p Youtube videos can be easily played with this without any interruptions),wifi connectivity is a great good result for me. however, some jitter problems did exist.,This is perfect device to connect wifi. Go for it.,This wifi adopter is good working,(Pictures attached)Size/Design:

Build Quality: Packaging: Software: Speed: Connectivity: Experience: Warranty: Size and Design:The best part about this is that it is very compact in size and very sober and elegant in design. This is a big plus as it is easy plug in and use, add to it the good sober design.Build Quality:The build quality is undoubtedly superb. Just no qualms about that, at all. When held, it doesnt give off that cheap and flimsy product-like feeling. It is good sturdy with its build quality.Packaging:This part is also a big plus as the item was well cushioned and packaged with all the necessary items that ensured that no damage could have been caused to the product during transportation. This ensures that I as a customer have received something not damaged internally already.Software:This is actually good but not great part with the product.The good part is that a CD has been provided with it along with a manual.The not great part is that NO LINUX SUPPORT has been given from Version 2 onwards. This is bad, really.Speed:It easily supports net speeds upto 300 Mbps. Practically speaking, I have tested it at my home and it easily supports net speed of over 100-150 Mbps without a sigh.On testing I found that it did connect to 5GHz network, without any issue.Connectivity:Please mark its not feet its metres. Multiply metres x 3 to get the distance in feet.It easily connects to my laptop or phone from 7 metres across one room. So thats 21 feet. I mean even our old bluetooth used to connect to about 15 ft.So 20-25 feet is not at all an issue with this. This is the big plus I found with the product.Experience:From this point of view, so far except the linux non-compatibility issue, I found no other flaws with this product.So overall its a great product.Warranty:Its 3 years so I am assured that atleast for 3 years I am tension-free and not just 1 year, contrary to most electronic items today that only provide 1 year

warranty with their items.,Best adapter I have bought ever. Works nicely seamless connectivity

Review Title: Good for fast charge but not for data transfer,Good cable compares to local the brand.,good but doesn

Review: The cable is efficient in fast charging but in quick data transfer. Overall fine.,I like the usb c L shape. Nylon Shielded core wire it improves the life of the cable.,i think i buy these every 6 months or so. fast charging stops working after a while. probbly something to do with the cable design. the cable gets twisted over time and I suspect that breaks the high capacity wires inside. but i keep buying it because there arent too many options in an L shaped design,Good and durable product. Sometime the charges doesn't work on few adapters. there might be few cut off or something but works fine on apple adapter, Car charger, USB,The product is really good at affordable price.,Good and fast charging, and value for money, 15wat,Not a fast

charger. Very slow charging with 65w. L-shape pin is very useful.

Review Title: It's quite good and value for money,Works well,Hdmi cable,Value for money,All good,Gets the job done

Review: I am using it for 14 days now. The experience is pretty good as of now. Picture quality is also not bad. Don't expect something out of the world at this price point. But you can go for it if you have a tight budget.,Initial impressions: works as said, glad I didnt go for cheaper options (not that its too costly) just plug and play. Will update if it screws up,The hdmi cable is good to watch movie,sports and its gives better quality while connecting your laptop with TV and play .I loved it,Works as expected. Length of the cable is short and it was mentioned also satisfied my requirement. If you need more length better look other options.,All good,It's the best HDMI cable at this price range. No problems yet. Just go for it !!,I was expecting this to be delivered on time and it was delivered on time.Product is good as i have tried other cables and wires from Amazon basica brand.,Good one

Review Title: Works,Nice Product,Fast Charging as original,Good for data transfer,Average. Cost effective,Good qu

Review: Definitely isnt as good as the original cord but works. Fast charging and pretty sturdy,Worth it,So I

had a faulty cable. I was lazy and have a lot of money so instead of calling Apple I bought this for like 300 bucks. Didn't expect much but for my surprise, this cable actually works and has fast charging. JUST GO FOR IT, Felt quite sturdy, the connectors look premium and were easy to insert. I used this cable to switch all my data from iPhone 7 to an M30s. Cable worked like charm while using smart switch app, all my data including WhatsApp data was transferred successfully. Satisfied with performance., Just good, Quality is very good Working smoothly.. using same Portronics PD charger, This is a real fast charging cable that is serving the purpose, Very good

Review Title: Great but, Worked well for 6 six months that's it, Compatible with Apple iPad 2nd generation and charging

Review: Loosing charging cable of Apple is costly affair. This wire was great purchase made to correct it, Worked well for six months that's it, now it's stopped working, now planning to buy one more because the price has come down to 150, Very good product. Compatible with iPad 2nd generation and charging very well. Quality of the product is very good and also works fine. Totally worth for its price., Product is super, I'm using from last 6 months. Till now it was good functioning. Now I noticed phone gets disconnected at multiple occasions. might be cable may be damaged. Overall worked well for 6 months., Takes 5-6 hours to charge full., Good item. Value, It is the best product I have used till now.

Review Title: Good for charging and Data transfer,,Good Quality but less Power Delivery,Fantastic!,Good,Not useful

Review: Check for offera before buying,18w charging cable,,Awesome cable!Charging, data transfer and durability is simply awesome, and there is not a single disconnection issue, which I always faced in original mi cable from box. Bought 1 more time as last cable damaged when phone fell on usb cable port as my phone is heavy and I never faced any issues so i bought one more time and didn't went for replacement as its waste of time and energy, i also have boat earphones that is also awesome..,Good,Charging is very slow. Forget about fast charging. Not useful at all,Cable is not fit properly on my samsung galaxy m31 type C port. If little hit happens then cable is plug it out. Otherwise length and cable quality is very nice,Boat type C cable doesn't support fast charging on Oppo F15, earlier i was using Vooc cable, which worked excellent
